theology and the cartesian doctrine of freedom now for the first time available in english was Étienne gilson s doctoral thesis and part of a larger project to show the medieval roots of descartes at a time when the very existence of medieval philosophy was often ignored young descartes was sent to la flèche one of the jesuits schools that offered a complete philosophical program and descartes would have had the same philosophical training as a jesuit there is some controversy about the exact dates of descartes s stay at la flèche and consequently about his philosophy instructor by gilson s calculations fran ois véron taught descartes for three years véron eventually left the jesuits to be free to engage in extraordinarily aggressive anti calvinist polemics if anything véron s overbearing manner may have contributed to descartes antipathy toward scholastic philosophy whatever descartes s objections to its philosophy curriculum later in life he recommended la flèche as the best school in france descartes s great intellectual mission in life was not his mathematics but his physics which was understood as a part of philosophy we see him navigate the shoals of heated theological and religious strife in his attempt to articulate the metaphysical foundations and in particular a philosophical vision of god for his physics or theory of nature as a layman

he always pleaded ignorance in technically theological matters he presented himself as a loyal catholic quite sincerely in the portrait gilson paints

the common law of england and the united states and the civil law of continental europe have a similar doctrinal structure a structure not found in the english cases or roman legal texts from which they supposedly descend in this original and unorthodox study of common law and legal philosophy the author throws light on the historical origins of this confusion and in doing so attempts to find answers to many of the philosophical puzzles which contract lawyers face today reassessing the impact of modern philosophy upon contract law the author concludes that modern philosophy having failed to provide a new basis for a coherent doctrinal system in the law of contract the only hope for devising such a coherent system lies in rediscovering the neglected philosophy of aristotle and aquinas
